Pursuant to the North Carolina Solid Waste Management Rules (Rule), 15A NCAC 13B .0533(c), the Solid Waste Section has prepared the draft Solid Waste Permit Number 4302-CDLF-1998 allowing the Dunn-Erwin Construction and Demolition Debris Landfill (C&DLF) unit – Area 1 to construct vertical expansion inside the approved waste footprint and to continue operating the existing landfill unit. This C&DLF, owned and operated by Harnett County, is located at 449 Daniels Road, near Dunn and encompasses an approximately 16.8-acre waste footprint. The C&DLF unit – Area 1 is seated on top of the closed 20.7-acre Municipal Solid Waste Landfill (MSWLF) unit – Phase III and will have a gross capacity for waste disposal of 785,011 cubic yards, if the permit is approved. The draft permit also includes conditions for operating miscellaneous solid management facilities inside the landfill facility.

Impact to groundwater from the closed unlined MSWLF unit – Phase III requires the implementation of a corrective action plan. An assessment of corrective measures for groundwater treatment was presented at the public meeting held on March 31, 2008. Phytoremediation coupling with monitored natural attenuation and groundwater extraction / removal were the selected remedies and approved to be implemented on October 09, 2009. The remedies combine the existing institutional controls and capping for the source control. The draft permit contains conditions for the implementation, operation, and assessment of the corrective action plan and amendments.

Rule 15A NCAC 13B .0533(c)(4) requires that the general public shall be given a 45-day period to comment on this draft permit. The comment period will begin on April 4, 2015 and end at 5:00 PM on May 18, 2015. Comments should be submitted in writing to Ming-Tai Chao, division contact, at the address listed above. All data submitted by the applicant, fact sheet, and draft permit are available as part of the administrative record and may be reviewed during business hours (9 a.m. - 4 p.m., Monday-Friday, by appointment) at the Division of Waste Management located at 217 West Jones Street, Raleigh, North Carolina or reviewed on line at “Public Notice” tab of the Solid Waste Section website at <http://portal.ncdenr.org/web/wm/sw>. A public hearing has not been scheduled for this draft permit. Any person interested in a public hearing on this draft permit should notify the division contact. If sufficient interest exists, then a public hearing will be scheduled.
